PROFESSIONAL PROFILE

Proactive software and e-commerce developer focused on delivering practical solutions, with strong analytical skills and expertise in solving complex problems. I possess excellent technical communication abilities, facilitating requirement understanding and delivering results aligned with client expectations. My methodical approach enables me to identify bottlenecks and efficiently implement performance improvements. Committed to deadlines and code quality, I quickly adapt to new technologies according to project demands. Currently specializing in e-commerce development with intensive focus on Shopify theme customization, integrations, and performance optimization.

PROFESSIONAL EXPERIENCE

Systems Programmer

Nov 2024 - Present

- Maintenance and development of ABAP programs with object-oriented programming solutions
- Development of integrations between SAP systems and third-party applications, including e-commerce platforms, sales apps, and supplier data feeds
- Optimization of interface dialogs and user experience
- Data manipulation in Microsoft SQL Server databases
- Process automation using Python (Selenium, Pandas, Pyodbc)
- Development of website MVPs for iterative improvement using React JS, Next JS, Tailwind CSS, JavaScript, and Node.js

Shopify Developer

Jan 2025 - Sep 2025 (8 months)

Intensive hands-on program preparing for the e-commerce development job market, covering:

- Liquid templating language fundamentals
- Shopify theme architecture and customization
- Custom web components development
- Product and Cart APIs integration
- Google Tag Manager data tracking implementation
- E-commerce performance optimization
- Best practices for scalable theme development
